Attachments: 2017-11-28 CDPHE Mark Up of Additional EM Survey Areas.pdf

Tom,

As you requested, I've marked up Figures 2 & 3. Please see the attachment.

We can discuss my mark-ups tomorrow, but I like to explain one of them here. I think your "Existing EM Survey Area" on Figure 2 is a little off, which is why I'm showing the red dashed area inside of the existing EM area. There is a disposal trench in the red dashed area that is on the edge of the existing survey area. It looks to me like only a portion of the trench was surveyed back in July. I'd like to make sure the entire trench gets surveyed this time around.

See you tomorrow.

Curt

Curt,

Please replace the previous EM letter with the attached – we corrected a labelling error on Figure 1. I apologize for the inconvenience!

Dave

Subject: Additional EM survey

Curt,

Further to our earlier discussions and my voice mail this morning, attached is a letter and figures describing the additional EM survey that Stratus plans to perform tomorrow at the Neuhauser Landfill site. The areas depicted for surveying can be adjusted in the field as necessary to ensure we cover all areas of concern to CDPHE. We look forward to seeing you tomorrow.

Best regards, Dave
